TRAGEDY OF DOG-BITE TOT

TAMSIN ROSE
AND CASSIE ZERVOS

A GIPPSLAND community has been left reeling by the death of a toddler bitten on the face by the family dog.

Emergency services were called to the home at Neerim Junction just before 6.30am.

The 14-month-old girl was in the kitchen with her mother when she was attacked by their six-year-old German wire-haired pointer, which had shown no previous signs of aggression.

Paramedics worked on the girl for two hours before pronouncing her dead at the scene. The incident shocked emergency services staff.

The dog was surrendered to the council and euthanised at the owners' request. The young family of five, including two older children, moved to the Neerim North

Rd property just a few months ago.

Police Sergeant Dean Waddell said the mother suffered hand and leg injuries trying to save her baby. "Mum's tried to step in and she's pulled the dog away. She's tried everything to save her child," he said.

Baw Baw Shire Council chief executive Alison Leighton said the girl's death would "shake" the tight-knit community.

"Our small communities in Baw Baw Shire tend to embrace new members, and I am sure the Neerim Junction community will be feeling for the family affected by this tragedy," she said.

Baw Baw Shire mayor Joe Gauci said the council had set up the local hall as a community base and would do everything it could to support the family.

"Neerim Junction is only a small community but all of

these little towns are very, very close," he said.

"It's the first fatality that we've had from a dog attack in our shire that we know of, so it's not nice and we're just feeling for the community."

Dog breeder Alex Krstic, who has worked with German wire-haired pointers for 30 years, said he refused to sell them as house dogs.

"That's not to say they aren't all right for families, but they are bred to hunt and they need to be managed properly," the Yarra Valley expert said.

"They can make good pets but I don't sell them to the pet market ... because they have an amazing drive to hunt."

Police will investigate the circumstances of the attack and prepare a report for the coroner.

dog turds..explosion.

Brian Carter

Thu 7/06/2018 2:48 PM

To: Brian Carter <brian_carter1942@hotmail.com>;

The attached photos show the average small urban back yard and in this case front yard. Some 40 dog turds .Two dogs walking it in and out of house.. Notice the swept pile of poop on rear path. Another front yard 2 doors down 14 turds in front yard. Some current trendy yuppies or lazy bleat like neutered sheep. "Helps build up my children's immunity if they play in it. "Dah.....AND OF COURSE TURNS THEM, YARD AND HOUSE INTO FILTHY DEGRADING MORONS with fermenting, evolving diseases arriving at varying intervals later in life. Well done RSPCA.

Another I know had constant pooping greyhound poop around the house lawn and exclaimed" It helps keep burglars away" ..Dah.. RSPCA and other dog cat favoured profitable animal lovers promote this dangerous behaviour by hard selling multiple dogs and cats for insurance purposes with media accomplice and other idiot compliance to gullible public. Greyhound breed was clearly the dog referred to when the catchphrase..."The quick brown fox jumps over the lazy dog.." Like most, bred for the stupid "Dolly dog" only purpose for dimwit owners.. Sleazy, lazy, cringing, WINGING, sly, dangerous if not getting its way, filthy, layabout , do nothing dog, adores idiot, subordinate owners and unbelievable pampering for really just sh...t.

All rapidly leading to multi more dogs and cats...more bacterial ecoli to contaminate our waterways. More carbon; methane to add to current destructive levels in declining atmosphere. More wild creatures slaughtered by dumped or roaming dogs and cats. More hooved animals to feed more cats and dogs bringing more carbon, methane and bulldozing wild forest that absorbs destructive carbon, methane and other contaminants, to graze more hooved animals in eloquent WINGING comfort before cutting their throats ..Dah. More dumbing down of human race and rapid increase in destructive mental health issues built on to satisfy profit only from ignorant lazy, blundering few. Amazing as bleating winging favoured animal welfare lovers save all dogs/cats while no mercy to wide eyed lovable lambs, calves, chickens as their throats are cut without mercy accompanied by rape of the seas and seafood stocks for all.....Sleazy double standard hypocrits... More, more, more, more, carbon, methane into the atmosphere , less trees, damaged waterways, oceans. More, more, more, carbon, methane into the atmosphere rushing sea level rise, damaging climate change, choking life then releasing all methane lakes from permafrost cover in Northern Russia, Siberia within next 15 years. Then the great god of stupidity takes us all off the planet in great pain with one rapid whoof..

It seems we are that stupid, arrogant, desperate as this is the best we can do instead of changing to fair sustainability with wisdom..An Archaic economic system.

THE LAW IS AN ASS TO OFTEN AND IT SEEMS ON THE PET (DOG/CAT) INDUSTRY PAYROLL, AS ARE MOST FAVOURED DOG/CAT AGENCIES POSING AS ANIMAL WELFARE AGENCIES AND MEDIA.

NINETEEN YEAR OLD MALE FINED AND COMMUNITY SERVICE FOR THROWING CAT BACK OVER FENCE INTO CAT OWNER NEIGHBOURS YARD. (Frontline news by media on the take).

PROBABLY ANGRY AT CAT CONTINUALLY KILLING BIRDLIFE IN HIS YARD...WILD BIRDS AND ALL OTHER WILD CREATURES EXPECTED TO BE EXTERMINATED WITHIN THE NEXT 5 TO 10 YEARS AS CATS AND DOGS SLAUGHTER MILLIONS EVERY DAY IN AUSTRALIA INCLUDING THE POLINATORS to demise of all. Bird life Australia from recent study found urban birds declining rapidly.

Cats and dogs on the hunt the second they go out the door. The only predator a dog and cat has is humans and motor vehicles. Seems the prissy law favouring profit driven cats and dogs are sucking up to powerful money grubbing dog and cat industry WHILE ALL pretentiously bleating "They are animal lovers"...DAH. Who will sue or MORALLY charge dogs cats and their owners or bleating DOG/CAT protectors from slaughtering the wild to extinction with great profit driven sleazy human and wild kamikaze purpose.? Seems the law protects those slaughtering the wildlife to extinction. 25000 dollar fine and jail if you shoot a dog/cat killing the wild life on your property AND BURY IT, PUTTING THE DOG AND CATS DANGEROUS CARBON AND METHANE HUGE FOOTPRINT BACK INTO THE GROUND, PREVENTING FURTHER OUT OF CONTROL BALANCE OF METHANE AND CARBON. THEN PLANT A TREE THAT HELPS YOU BREATHE AND TAKES IN THE CARBON AND METHANE THAT WILL KILL US IF WE DONT FLOWER DOWN OUR WAYS QUICKLY. .Human dog and cat traffickers breed /produce more millions of dogs and cats the earths atmosphere and waterways can manage, then breed over a billion more carbon and methane producing hoofed and other animals and creatures a week to feed the ever increasing dog and cat numbers. The law protecting rspca subversive agenda to replace the wild with dogs and cats for profit while we slaughter a billion other animals and creatures a week to feed dogs and cats in the name of animal welfare .dah..Double standard hypocritical dumbing down human barbarism. As the dog /cat industry bleat like neutered sheep, "We must save every dog/cat from euthanasia"... hypocritical double standard junk lunatic humans. A civilization out of control. A line from a Bob Dylan song altered for todays times...at this time more urgent, as humans need a kick in the ar...e.. now more than ever. "How many times can a man (woman) turn their head and pretend that they just don't see".

The dangerous silent, meek, FRIGHTENED and ignorant, steam rolled, brainwashed, apathetic pummelled with lies, images every second on media everywhere.

Lets have a "Throw the cat back over the fence, and I don't want to lick your dogs bum like you do day" or shoot free roaming dogs/cats as intelligent farmers and responsible landowners do for food or blood and bone as we cut the throat of billions of other animals and creatures a week without blinking. .For their welfare!!!!

GROW UP BEFORE IT IS TO LATE YOU STUPID HUMAN RACE WITH YOUR LAW SYSTEM FAVOURING STUPIDITY. Martin Bryant gave no one mercy or a minute more of life as they appealed for mercy, as he slaughtered over 30 humans and wrecking families and friends in a few minutes of those killed forever. He has a lifetime of seemingly junk law appeal opportunities to keep himself entertained and comfortable for the rest of his life while the sufferers and victims foot the more than 250000 dollars a year bill to keep the scum on tv, computer and microwave comfort. This is no justice going forward, it is and insult to real justice.

ON THE SAVE THE CAT AND DOG AT ALL COSTS... EXTERMINATE THE WILD NEWS CHANNEL 7 27TH MARCH 2018

Great fuss made of cat roaming loose in neighbourhood killing native animals and birds and shot by someone who objects to cats loose killing the wild. The only chance many of us have to kill huge overpopulations of cats and dogs freely slaughtering millions of native creatures every day to extinction in Australia which the media is very silent about. I have worked and lived in places where cats and dogs shot on sight as they are ripping the teats off the cows, slaughtering lambs, wiping out the wild life pollinators AND A THREAT TO HUMAN LIFE according to intelligent thinkers, including the National farmers federation ..

I know of some who make suburban cat rugs from stray cats and shoot any cat that constantly come into their wild bird and creature home sanctuaries and their are many... and bury them in their yard for blood and bone as we do with millions of other animals. The cats owners last word on the TV news piece was ..."I would like to know what the shooter was thinking when he fired..assuming a male...at the cat". For his and your information...THE SAME THINKING millions of cats and dogs and their subservient owners have when the cat and dog rip a wild creature to bits every day in the millions, or dogs bite, maul or kill humans (many toddlers) in the thousands every year. OR the same thing people think when they cut the throat or bolt over a billion other animals and creatures a week to feed 1.2 billion plus, mostly ornament and useless dolly dogs and cats in the name of animal welfare ...Dah.

New "up and down commercial science " to suit the favoured and corrupt....Keeping clean will help kill you!!...AND stroking a dog at least 20 times a day will prevent a remote disease.. Only someone corrupt trying to swindle and sell you a dog would tell you that.. Like saying.. Wait till the car is only a metre from you doing 60 k an hour then leap out of the way...it will help your reflexes and coordination.dah..Stroke/massage a friend, your partner. play with your kids and family .Grow a plant and grow up at the same time. I have seen a father ignore his distressed young child for an hour while he stroked and showed off the dog to all around.. Most who could see he was a blithering idiot, subordinate to the dog and dog and cat industry and favoured animal welfare, creating a larger mental illness and

human dumbing down industry for the economy and the idiots that drive this archaic economic pilot that is failing rapidly.

Double standard hypocritical blithering morons sending life on earth past tipping point faster than ever with out of control overpopulations of favoured hoofed animals, dogs and cats and humans producing further dangerous levels of carbon, methane, nitrous oxide a serious air pollutant (Now replacing C.F.Cs to destroy the ozone layer) raising climate temperatures more rapidly , melting ice caps and Perma frost ice cover over huge methane lakes in Northern Russia and Iceland. Melting at some 10 metres a year. Could be released as early as 12 to 15 years from now if we do not turn it around now. Wiping every living thing off the planet...dah. Where is the so called intelligence and why are we still dogged by idiots, dumbing humans so rapidly to and below dog brain level as we exterminate everything else just for greed, fun, convenience and trophies .

Another of hundreds dog/cat rolls over story every minute of the day in media supplied by pet industry..

Bold media headline "Portia the dog bitten by snake recovers. Snake bites a horrible thing for cats and dogs" Vet exclaims! Head line should read...
"Snake living in environment it has for millions of years minding own business attacked by disease ridden dog that is on the hunt the second cats and dogs out the door"
SNAKE DIES HORRIBLE DEATH AS disgusting overpopulations of dog and cat slaughter millions of native creatures a day in Australia to rapid extermination.
Spoilt dog brain humans make a hero of the dog. Humans would not see a snake in their lives if the cat and dog were not disturbing the wilds right to life and hermit nature. At least 12 snakes within a hundred metres of anyone in the bush or on bush or urban fringe any moment of the day.. They do not wish to be seen either by blithering, prissy, weak dopey humans. Dogs and cats killing everything they can that moves just for fun and the glee of barbaric, ignorant moronic owners with the help of media and pet industry dog and cat promotion for sales and blatant extermination of the wild. Many hours a day of fluffy dog images. Minutes ONLY on the WILDS right to life and peanuts on wild preservation.

Cats and dogs love having idiots for owners who do everything for them while they give nothing. Grade one school class when asked what would happen if you sleep with the dog ..Their answer..."When you wake up you stink!!." Its the kids future adult idiots are stealing from them. Grow up earthlings....Focus on keeping this planet our home healthy, the best in the universe , rather than spending fruitless energy and FLASH GORDON, star wars MENTALILITY ON PLANNING TO LEAVE FOR MARS WHEN we have destroyed this beautiful planet as predicted by the best "uncorruptable" brains now on this earth who should focus everything on life preservation of everything on this my home planet earth..

When it comes to hotel etiquette, there are a handful of habits that are largely frowned upon. Drooling on the marble and sniffing guests are two that spring to mind. And while patrons are expected to conduct themselves accordingly at a luxury stay, those who represent the establishment are under even closer scrutiny.

Which is why for any other employee at hip hotel The London

West Hollywood, scoffing snacks off the menu and lounging by the rooftop pool while on duty would never fly.

But Winston and Churchill are no ordinary guest experience aficionados. They're the four-legged kind that go woof.

Part of a campaign to market the hotel as fur-friendly, as well as enhance the experience for guests, two British bulldog puppies named Winston and Churchill have joined The London hotel team as live-in mascots. It's a growing trend in luxury

NEWS

Wedge-tailed eagles found dead after 'clearly intentional' mass killing in East Gippsland

ABC Gippsland By Emma Field and Nicole Asher

Updated Wed 13 Jun 2018, 10:27am

Mr Bruce said wedge-tailed eagles were protected under the Wildlife Act, and deliberately killing the birds carried a maximum penalty of \$7,928.50, and up to six months' imprisonment, and an additional penalty of \$792.85 for each bird destroyed.

Dr Harrison is developing a technology known as "cloud brightening" – encouraging clouds over the reef to deflect more of the sun's rays back into space, which would hopefully curb rising sea temperatures that cause coral bleaching. The reality is dawning that even swift global action on climate change is unlikely to save the Great Barrier Reef, because several decades of elevated global

temperatures are already locked in. Scientific solutions are needed to buy the reef time and prevent catastrophic damage in the next few decades.
